

IFSUMB-XX-S In-Line Free Standing Undercounter Merchandiser Base – Slatwall

\$1,630.00–\$1,770.00

The IFSUMB is an InLine Free Standing Full-Height Straight Side Fixture with a Merchandiser Base cabinet. The 5" Valance is perfect for installing LED lighting in order to accentuate products on display. This slatwall merchandising base fixture is perfect for showing products that hang or are best displayed in baskets. The mid-level countertop provides a nice surface to display food items or a self-pay kiosk for customer check-out service.

Product Description

InLine Merchandiser Base Series

IFSUMB InLine Free standing fixture, full-height, arch side inline merchandiser base slatwall fixture with undercounter merchandiser space, and is a great addition to the Micro-Market Fixtures line-up. This line fits within the In-Line fixture sizes providing easy replacement of coolers and large equipment with additional merchandising space. The mid-level countertop is perfect for positioning a point of sale kiosk. The merchandising base cabinet allows for point of sale impulse items to be displayed front and center as customers utilize the self-pay kiosk for check out.

High Quality Construction

This stand alone fixture is constructed of engineered particleboard and high pressure laminate and built complete with ¾" contoured side walls, slatwall main wall and base cabinet, and has a counter top included. This micro market fixture ships fully assembled. Ask about the optional finished outside back panel, custom color combinations, special sizes and more. Though these fixtures are part of our modular design series each one is ready for customization upon request.

The Accessory Package A ships with the inline merchandiser base fixture. Package A is a wire basket package including (12) Scanner Hooks, (24) Ticket Holders, (6) 12"x12"x8"x4" Slope Side Wire Baskets, (6) 12"x12"x4" Wire Baskets. Click on the Additional Information tab above for detailed information about each accessory packages.

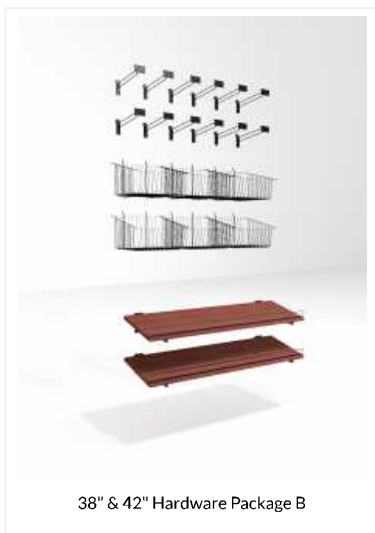

Artwork packages can not be added to the IFSUMB however, the upper valence allows for easy installation of LED lighting to draw attention to the products placed in the InLine Merchandiser Base area.

~ Custom sizes available
