## Bio

Axis Designs & Architectural Millwork, Inc. is a second-generation, family-owned business that has been manufacturing breakroom and cafeteria furnishings since 1979.

We built our first Micro-Market fixtures in 2013 and they have since been a significant part of our core business.

From consulting to installation, we can fill the diverse equipment, décor, seating, and furnishing needs of any lunchroom or cafeteria. We provide one of the most comprehensive design, consulting, manufacturing, and installation services available to help you create beautiful, functional food service areas. Browse our site, view our brochure, or contact us to learn more about Axis Designs & Architectural Millwork, Inc., located in the Fox Valley of Illinois.

# Express Cafe

**Micro-Markets** – Employees and guests will enjoy coffee and food in a warm and welcoming environment.

## Beverage Machine Countertops

– Our Micro-Market Fixtures are built with high quality materials and construction methods. Rest assured it is safe to place heavy equipment on the built in countertops. Let us know if your layout includes equipment and we will adjust your fixtures as needed.

**The Dining Area** – The dining tables and chairs are made from similar colors tying the layout together. Ask us about seating layouts and furniture too!
